

this is comment on how klove affects its listeners....as a faithful listener i am so encouraged to hear the positive music...it helps keep my mind on our Creator!it is nice to know as a whole the community has an option to secular music talkin about sex,drugs,alcohol.....if u take away klove u would take the only Jesus some people may ever know.....its a must because the whole world isnt into those worldly pleasures so often talked about in lyrics of other music...if anything u should take other stations off the air!!thanks for your time!
